

Facility for Antiproton and Ion Research in Europe GmbH

One of the largest research facilities in the world is currently under construction in Darmstadt: The international particle accelerator FAIR. The heart of the new facility will be a ring accelerator of 1,100 meters in circumference. At FAIR, 3,000 scientists from more than 50 countries will investigate the inner core of matter and the evolution of the universe since the Big Bang. FAIR will be built next to the facility of GSI Helmholtzzentrum for Heavy Ion Research whose existing accelerators will be used as pre-accelerators. FAIR is built by FAIR GmbH, an international company owned by Germany and nine partner countries from Europe and Asia. FAIR will offer outstanding research opportunities and discovery potential for more than 3,000 scientists from more than 50 countries.

We are looking for the finance department of FAIR GmbH for an

Finance Accountant (m/f)

(part time 50%)

Reference Number: 778300-17.19
